local radio station. "Local radio stations play an important role in their communities, providing local news, information and entertainment to residents, and generally serving as good corporate citizens in the local community life. This is particularly true in smaller towns, where the radio stations are limited in number. Yet there are still rural areas of our country that do not have even a local radio station."<sup>2</sup> The proposed Channel 233C3 will provide additional diversity and an outlet for local self-expression to Tipton residents and therefore is in the public interest.

Attached hereto is a channel study confirming that Channel 233C3 can be allocated to Tipton, Oklahoma, consistent with the FCC's FM separation rules. See revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992). (See, Attachment A) Please note, the petitions to add Channel 233C3 to Ouanah, Texas, Channel 233C2 to Elk City, Oklahoma and Channel 232C2 to Lawton, Oklahoma were dismissed by Report & Order, DA 03-1533, MB Docket No. 00-148, released May 8, 2003. (See, Attachment B) Although this action is pending an Application for review it is an effective but not yet final dismissal.

(Report & Order dismissing Channels 233C3 at Quanah, Texas,  
233C2 at Elk City, Oklahoma and 232C2 at Lawton, Oklahoma)

7. In the event that its Counterproposal can not be favorably entertained, the Joint Parties advance two alternative proposals. The staff no longer entertains alternative proposals set forth in counterproposals.<sup>8</sup> In any event, each of these alternatives fails to comply with our rules and procedures. The first proposal involves the proposal to reallocate Channel 248C to Keller, Texas, and modify the Station KLAJ license to specify operation on Channel 248C at Keller. A Channel 248C allotment at Keller requires the substitution of Channel 230C1 at Archer City, and thus, cannot be considered. The second alternative only proposes the substitution of Channel 247C1 for Channel 248C at Waco, Texas, reallocation of Channel 247C1 to Lakeway, Texas, and modification of the Station KWTX license to specify operation on Channel 247C1 at Lakeway. The Joint Parties also proposed related channel substitutions necessary to accommodate this reallocation. However, none of these proposed channel substitutions conflict with the underlying Channel 233C3 allotment at Quanah, Texas, proposed in the Notice.

8. Accordingly, IT IS ORDERED, That the aforementioned proposal filed by Nation Wide Radio Stations for a Channel 233C3 allotment at Quanah, Texas, IS DISMISSED.

9. IT IS FURTHER ORDERED, That the aforementioned Counterproposal filed by the Joint Parties IS DISMISSED.

10. IT IS FURTHER ORDERED, That this proceeding IS TERMINATED.

11. For further information concerning this proceeding, contact Robert Hayne, Media Bureau, (202) 418-2177.
